Dear Mr. Alexander,

I am writing this to express my appreciation for all that you did to help us develop a plan for the sound and lighting systems in our new sanctuary. The results have been more than satisfactory and we are very pleased with both of them. They add greatly to our praise and worship service. The sound system allows everyone in the sanctuary to hear without turning the sound to an uncomfortable level and the lighting zones work very well for special events.

We have already had two other churches in town come and look at the sound system because they were working to improve the systems in their own churches. They were very impressed with our system, and wondered if they could do something similar. Of course, we referred them to you.

Thank you again for your expert advice, your physical labor, and most of all the prayers and love that were evident as you worked to make these systems right for us. May God richly bless you for all you did!

In His love,

Lynn Wilson and the congregation of Emmanuel Fellowship.
